

27th July, 1948.

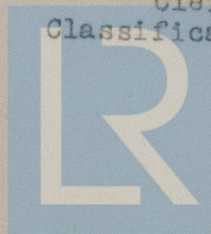

Dear Sirs,

3. With reference to Manchester Report No. 13313 on the Steamer "CHRISTINA DAWN", it has been thought well in view of the recent Periodical Special Survey (D) carried out at Sharpness, to refer the matter to the Bristol Surveyors for their remarks. Before doing so however, it will be appreciated if Mr. Allan would furnish if possible, more comprehensive details of the repairs carried out and of the circumstances giving rise to the leakages.

Yours faithfully,

The Surveyors,
MANCHESTER.

Clerk to the
Classification Committee.
