Suva, Fiji,

26th August, 1931.

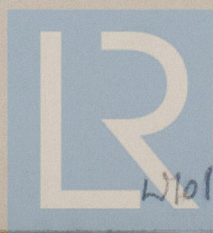

Aux. Schooner "JOHN WILLIAMS V".

This is to certify that I, Ernest W. G. Twentyman, the undersigned Marine Surveyor to Lloyd's Agents in Fiji, did, at the request of the Master, survey the four lengths of cable chain (60 fathoms) that has been imported for the use of the Aux. Schooner "John Williams V", and find that the chain is of the same dimensions as the cable now on board.

I have also sighted Board of Trade certificate No.46018, issued by Lloyd's Proving House, Cradley Heath, which has arrived with the chain in question, and find that same complies with the Board of Trade and Lloyd's requirements.

(Signed) Ernest W.G. Twentyman,  
Marine Surveyor  
to  
Lloyd's Agents.

Fee for this survey and report: £1-1-0. (one guinea).
