

C 3211
GLASGOW REPORT No 50569

GLASGOW

GLASGOW,

17th April, 1930

J.D. BOYLE,

Messrs. Munro & Miller, Limited, Glasgow attend at the Works of Messrs. Maitland & Company, Kelvinhaugh, Glasgow on the 14th April, 1930 for the purpose of examining and testing:-

One 280 gallon lubricating oil tank made of
9/32" thick mild steel plates with oxy-
acetylene welded seams

intended for Messrs. The Grangemouth Dockyard's Ship No.418.

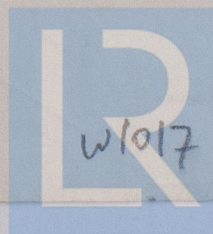

This tank was tested in the presence of the undersigned under a hydraulic head of five feet above the tank top and found satisfactory.

Stamped for identification:-

No. 3 211
