

# Lloyd's Register of British & Foreign Shipping,

Maritime Buildings,

Quai Taverniers, 4,

Antwerp, 6th January 1913.

DUPLICATE

THIS IS TO CERTIFY that the Six (6) BOILERS of the steel twin screw steamer "ALBERTVILLE" have been tested by hydraulic pressure, in the presence of the Surveyors to this Society, to twice the working pressure, that is to say to 430 lbs. per  $\square$  ", with satisfactory results, and their safety valves subsequently adjusted to 215 lbs. working steam pressure - the accumulation not exceeding 6 per cent of the working pressure.

Principal Surveyor to Lloyd's Register of Shipping,

Antwerp.
