20th May, 1949.

Dear Sirs,

S.S. "EILATH"

S. I have to acknowledge receipt of your letter of the 2nd instant with enclosed plan and to acquaint you that your remarks have been duly noted.

With regard thereto, however, I think it well to point out that this plan is only an arrangements drawing and that structural details of the alterations effected will be required before approval can be given.

In this respect it would appear that the deck girder in line with the hatch side (which is supported by bulkheads 80 and 94) has been cut in way of the new opening.

This will require to be verified and the method of supporting the girder found to be satisfactory. The scantlings of the new structure will also be required for consideration.

Yours faithfully, © 2020
