

(TO REPORTS)

S.S. "EILATH" (ex "KOMNINOS")

Alterations as per Owners' letter and Drawing,  
received 7/5/49.

The Owners should be informed that the plan received is only an arrangement drawing and structural details of the alterations effected will be required before approval can be given.

In this respect it would appear that the deck girder in line with the hatch side (which is supported by bulkheads 80 and 94) has been cut in way of the new opening.

This will require to be verified and the method of supporting the girder found to be satisfactory.

The scantlings of the new structure will also be required for consideration.
