

RNOLD HOLZER  
MARINE ENGINEER  
HANADIV AVENUE

HAIFA, 15th March, 1949.  
P. O. B. 2  
TEL. 2661

This is to certify that I, A. Holzer, the undersigned surveyor, have at the request of Messrs. J.V. Delbourgo & Son, Haifa, Israel, surveyed the repaired stbd. Hawse-Pipe on the s/s "Eilath".

The broken hawsepipe has been repaired according my survey report of 6th March, 1949 and hose tested in my presence.

As the repairs have been carried out to my satisfaction and as the hose test showed no leakages I consider the ship as seaworthy.
