

Lloyd's Register of Shipping,

47, Church Street, West Hartlepool.

2 Enclosures.

31st December, 1936.

Reference

Dear Sir,

We enclose herewith, in duplicate, plans of proposed Crank Shaft and Shafting, submitted by Messrs. Central Marine Engine Works, West Hartlepool, for consideration and approval, and intended for their Contract No.1076 - Messrs. Wm. Gray & Co's Yard No.1076.

The Engine Builders state that the intermediate shaft is increased in size for the purpose of raising the fundamental natural vibration frequency of the system above the third order harmonic component of the cylinder torque variation.

We are, Dear Sir,

Yours faithfully,

The Surveyors,
