

Messrs. Wm. Gray Yard No. 1076.

Messrs. The Central Marine Eng. Works, Eng. No. 1076.

Swan, Hunter & Wigham Richardson's L.P. Turbine No.1548.

IT IS SUBMITTED the Newcastle Surveyors be informed that particulars of the power and size of these engines have not been received in this Office, as stated in their letter, and in order that this case may be considered they should forward the necessary particulars, viz:-

Power, cylinders diameters and stroke of reciprocating engine.

Working Pressure of Boilers.

Power of exhaust turbine.

Revolutions per minute of screw shaft when reciprocating engines and turbine are working in conjunction.

Retain plans pending reply.
