

'T A C H E E'

A Special Survey became due 6.50.

The vessel was last seen in dry dock in February 1949.

ACTION is DEFERRED pending further information regarding when and where the vessel is to be broken up.

A letter dated 10.8.50 has been forwarded by the FALMOUTH Surveyors from the Managers of this vessel, who point out that the vessel has now changed hands and the new Owners are requesting information regarding the minimum requirements of a ballast voyage without drydocking.

Having regard to the vessel's age, and the fact that she has not been seen in dry dock since 2.49, it is considered that before any certificate can be issued a Condition Survey should be held which should include drydocking.

IT IS SUBMITTED Messrs. Radonicich Ltd., be informed accordingly.

The question of the Load Line should be referred to the Freeboard Dept.
