BRITISH POLAR ENGINES, LIMITED.

139 Helen Street,

TSR/JAR

GOVAN.

9th January, 1945

Dear Sirs,

Engine No. 502

We enclose herewith our official request for the services of your surveyor during the construction of the above engine.

Previously this engine was scheduled to be to British Corporation tests and inspection, but owing to a change of owner, we would request that the shafting and items usually surveyed which are finished and already accepted by British Corporation be accepted by your good selves.

We enclose for your approval drawings and test reports of the following:-

Main Crank Shaft	NA347	H351	A301
Scavenge Shaft	KA317	K351	A303
Thrust Shaft	MA781	M351	A723
Air Receiver	MO109	M41	O107
Main Connecting Rod	80843		
Scavenge Connecting Rod	KH417	K341	H424
Scavenge Piston Rod	KH513	K351	H505

Your data sheet is also enclosed herewith.

Our findings with regard to critical speed will be forwarded when the particulars of the propeller shafting come to hand.

We would be pleased to have approval of these drawings at your earliest convenience.

Yours faithfully,

For: BRITISH POLAR ENGINED LIMITED.

Sgd. T.S. Raeburn.

Chief Draughtsman.
