The Malone Instrument Co. Ltd.,

Carliol Square,

NEWCASTLE/TYNE. 1.

24th May, 1945.

Messrs Clelands (Successors) Ltd.,
WALLSEND/TYNE.

Dear Sirs,

Ship No.77.

With reference to your letter of the 23rd, we have pleasure in stating that the Malone Mercury Column Depth Gauge has been fitted to many thousands of tanks without sounding tubes, and that these Mercury Column Depth Gauge Outfits have been examined and found satisfactory by all the leading authorities, including Lloyd's Register of Shipping, Board of Trade, and the Admiralty.

Some of the outfits which have been fitted on large Passenger Liners indicate the amount of fuel oil in a number of Deep Tanks, underneath the passenger accommodation, where sounding tubes cannot be fitted.

Trusting this information is to your satisfaction, and assuring you of our best services.

Yours faithfully,

For THE MALONE INSTRUMENT CO. LTD.

(Sgd) J. Malone.
