# Lloyd's Register of Shipping.

Port of Oslo,

21st April 1950.

DETAIN

This is to Certify that

P. EIDE

the undersigned Surveyor to this Society did at the request of the owners examine the steel twin screw motor vessel "SOLITAIRE", 3160 tons gross, of Oslo, whilst lying afloat at Sandefjord, on the 18th April 1950 and subsequently, with a view to the issuing of a certificate for a voyage in tow from Sandefjord to the United Kingdom in ballasted condition.

Having examined the vessel as far as practicable afloat, and having tested the windlass and steering gear and the auxiliary oil engine and generator supplying electric current for same, the vessel is in my opinion in a safe and seaworthy condition for a ballast voyage in tow to the United Kingdom.

P 2.39 - Bent

P 12.40 - Corroded

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—  
"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
