

LLOYD'S REGISTER OF SHIPPING

PORT of Dortmund

10th January 1939.

THIS IS TO CERTIFY that

J u l i u s Q u a s t

the undersigned Surveyor to this Society did at the request of Messrs. A. F. Meier & Co. of Hamm 1/Westph. attend their works at Hamm on the 3rd January 1939 for the purpose of inspection of one windlass fitting for two stud link chain cables of links with 130 mm extreme length driven by electro motor of 8,0 K W and 220 Volt to the order of Messrs. Menzi & Co. Inc. of Manila.

The windlass has been inspected in finished condition, and was found in accordance with the plan No. 5931, the electro motor mounted on the bed plate.

The workmanship of the complete machinery was found, so far as could be ascertained, in good working condition. A trial of the machinery with cable and anchors could not be carried out.

The certificate of test of electro motor has been attached hereto.

For identification the windlass was stamped:
