Mr. E. R. Sanderson
 c/o Lloyd's Register of Shipping
 240 Dasmariñas, Manila

Dear Sir:

With reference to our recent conversation regarding the new license of our M/S "MAMBUKAL", I have discussed this matter with Mr. Enrico Pirovano and he is of the opinion that this ship should be given a classification as follows:

"Bay and River Service in Sheltered Waters"

Such a classification would be much more feasible rather than have the boat classified between "Limiting Ports" as this boat will be transferred from one run to another and therefore the license and the classification would have to be changed continuously under a classification of between "Limiting Ports".

We therefore suggest that the license and classification be given in a more general way as proposed with our today's letter and trust that you will see your way clear to give the corresponding license to our M/S "MAMBUKAL".

We shall thank you if you will please let us have your opinion on this matter and are,

Very truly yours,

THE DE LA RAMA STEAMSHIP CO., INC.
