M a n i l a.

Dear Sirs :-

Re Machinery plant for the M/S "MAMBUKAL"  
owned by Hijos de I. de la Rama,  
I l o i l o.

We beg to refer to the various conversations our Mr. Fieber had with you the other day, in the course of which we acquainted you with the extremely disgusting fact that through an inadvertency on the part of the factory, both the Spare Cooling Water Pump and the Fire Extinguishing Pump were shipped to Manila without having been properly tested before.

We should feel very much obliged if you would approach your main-office in London with a view of finding out whether it would exceptionally be possible to have the testing of the Pumps in question accomplished by you here in Manila or in Iloilo and if, in the affirmative, you would be entitled to issue a corresponding test certificate.-  
A specification with all technical datas of the 2 Pumps is hereto attached for your convenience.

In case your home office in London should require any further information concerning this matter, we would suggest that they get in touch with our buying agents in Hamburg, Messrs. C. Andre & Co., by whom the whole transaction was handled and who have consequently also ordered the Pumps from the suppliers. They are, therefore, in a position to give reliable and accurate information in this connection.

We thank you in advance for your kind assistance and beg to remain,

Yours very truly,  
Per Menzi & Co., Inc.

WL/lb.-  
Encls.-as above.
