*Extract from letter dated* 9th March *received from*

The Society's Surveyor at Manila.

*Original letter with* "MINDANAO".*Vessel's Name* "MAMBUKAL".

Work on this vessel is progressing but has proved to be very extensive. The Engine Makers have sent their Engineer to Ilo Ilo from Germany to supervise the installation of the machinery.

I am leaving for Ilo Ilo with Mr. Pirovano the Manager, to inspect the work and survey the vessel.
