H100H1

SURVEY OF SHIP.

I, certify  
 William Guy Robertson,  
 that at the request of Messrs. Peirce Leslie & Co., Ltd.,  
 Lloyd's Agents at Mangalore, I surveyed the s.s. "Marina" on the  
 6th day of April 1949 in consequence of her having  
reported a hole  
 in ship side plating in No. 5 Hatch.

On examination of this vessel on the day named I found  
that  
 said hole had been blanked off with plate joint & two bolts  
 securing to ship's side. Over this a cement box had been  
 positioned and having been put there over 36 hr. previously,  
 had completely set.

From the survey that I have been able to make, as far as  
 possible, I conscientiously believe the said vessel can proceed on  
 her voyage.-

*W. G. Robertson.*

(Signature of Surveyor)

Dated at

Mangalore, 6th April 1949

*Chief Engineer S. S. Shajahan*
