CARDIFF.

3rd March, 1920.

Lloyds Register of Shipping,
71, Fenchurch Street,
LONDON.

Dear Sirs,

s. s. "UALAN".

We are in receipt of your letter of the 2nd inst., and thank you for the information contained therein.

We note your explanation regarding the omission of the figure "1" for equipment from the class of the above Steamer that the equipment supplied was not equivalent to the requirements of the Society's Rules. We were under the impression that Anchors and Cables had been checked by your Local Surveyor by Certificates on board. These Certificates were handed your Local Surveyor for this purpose and have not yet been returned.

We also note your statement that there was no third Bower Anchor. We were informed by your Surveyor at this Port that a third Bower anchor, weight 8 $\frac{3}{4}$ cwt. ex stock, would be required for this vessel to obtain figure "1". This was immediately put on order and now awaits vessel at this Port.

We shall be pleased to receive further advice if this anchor is placed on board whether this will meet with the requirements of your Society to obtain the figure "1".

Yours faithfully,

Lloyd's Register
