Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

26th February, 1920.

Dear Sirs,

I have to acquaint you that the consulting engineers of the Owners of the steamer "UALAN" state that they understand that this vessel was completed in June 1918, whereas the certificates recently issued in respect of the reclassification survey held at Cardiff recently gave the date of build as 1917.

In the circumstances I have to request that you will ascertain from the builders and let me know the actual date of launch of this vessel, and date when she left the builders' yard to enter upon service.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
AMSTERDAM.
