

"LEANDROS"

Before this case receives consideration IT IS SUBMITTED the surveyor be requested to explain why the thicknesses of shell plates in 'C' strake (p & s amids & aft), and 'G' strake (p & s aft) have been omitted from his drilling sheet, and confirm that these plates were found or placed in good condition.

IT IS ALSO SUBMITTED he should be informed that in addition to the items enumerated as requiring to be dealt with for completion of SPECIAL SURVEY, there should be added EXAMINATION of F & A tank tanks (internally), decks, hatchways with covers, supports, tarpaulins, cleats and battening arrangements, auxiliary steering gear, chain locker, general equipment, W.T. door, air and sounding pipes, casings and freeboard markings.
