Lloyd's Register of Shipping.

MAR 1949

Port ARSEILLES.

11th February, 1949.

C. 864.

This is to Certify that I have

Surveyed the Boiler and Machinery of the Steel Screw Steamer
"LEANDROS", 682 tons gross, of Panama, whilst lying
afloat at this port on the 28th June, 1948, and subsequently,
(SPECIAL SURVEY PARTLY HELD)

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have

Recommended that ~~the record of~~

NO ALTERATION

made in the Register Book in the case of this vessel,
subject to the boiler working pressure being kept to 115lbs/sq. inch,
until all outstanding survey requirements are dealt with, as
recommended, not later than the 10th March, 1949.

(sgd) PIERRE FONDEUR.

Engineer Surveyor to Lloyd's Register.

ificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
ne Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
to be understood that neither the Society nor any Member of any of its Committees is under any circumstances
held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its
any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
