Dear Sirs,

Referring to conference with your goodselves regarding the omission of intermediate bulkhead between the fore and main cargo holds in our newbuildings Yard No. 2 & 3 now under construction for our account by the Baltica Værftet, we hereby beg to apply to your Committee's sanction that these bulkheads may be omitted as they will greatly interfere with the stowage of wooden cargo for which the vessels are specially intended.

We remain, Dear Sirs,

(Signature).
