Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

21st September 1921.

Dear Sirs,

With reference to your First Entry Report No. 74744

M on the Steel S.S. "MONTFERLAND", I shall be glad if you will state whether, in view of the size of the stiffeners on bulkhead on frame 162, a semi-box beam is fitted to this bulkhead.

You should also state whether the upper deck beams are increased for the carriage of suspended meat cargoes as approved, and if the test for the stream anchor is as required and not as stated.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

NEWCASTLE-ON-TYNE.
