

Trawler, 216 feet in length, proposed to be built by Messrs.  
Hall, Russell & Co.Ltd.

-----  
It is submitted the Glasgow Surveyors be informed that  
the plans of the proposed new Trawler may be dealt with by them,  
and for their information and guidance the approved plans of  
the same Builders No. 732, a similar vessel, together with a  
copy of the scantling sheet for the same ~~should~~<sup>is</sup> be forwarded.

It will be observed from the sheet that the scantlings  
were obtained partly by interpolation and by comparison with  
those approved in previous similar cases.

It might be pointed out that revised extended Rules  
for Trawlers were approved by the Committee in November last,  
and a copy of these is also forwarded. These revised Rules,  
however, are not yet in compulsory operation, but may be  
adopted by the Builders or Owners, but if it is so desired by  
the Builders the scantlings of the proposed vessel may be  
dealt with on the basis set forth in the preceding paragraph.

Rtr 29/3  
Assd. 30/3  
Plans. Sheet & hulls.

  
30. 3. 39.
