Dear Sir,

S.T. "ILFRACOMBE"

Inismore Strand, 21st Sept. 1945.

This vessel after stranding has been refloated with her stern frame broken as depicted in attached photograph. Have discussed repairing recommendations with Mr. Grier, and the method of repair depends on the material of construction; if of Iron Mr. Grier requires a fire weld; if of steel, electric welding will meet Classification requirements.

To ascertain nature of material I telegraphed you as per enclosure.

Yours faithfully,

*Charles E. Roffey*
