

"OKLAHOMA"

Attention is drawn to the date of the last Survey - 28th December 1940, the date of completion of report - 31st January 1941, and the date of receipt in the London Office - 12th November last.

It is concluded that the matter of this long delay has been taken up by Mr. Bennett with the Surveyors, (see also correspondence between Mr. Bennett and Mr. Clement), and that some explanation will be furnished.
