71, Fenchurch Street, E.C. 3.

14th January, 1919.

Dear Sirs,

I have to acquaint you that a report has been received from the Society's Surveyors at Aberdeen of survey held during construction on the engines and boiler No. 899 made by Messrs. J. Abernethy & Co. Ltd.

It is stated that these engines and boiler are being shipped to Spain by Messrs. J.G. Kincaid & Co., by whom the intermediate and tail shafts and also the propeller and stern tube have been manufactured, and I shall be glad if you will ascertain and let me know the names of the Builders of the vessel for which this machinery is intended.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Surveyors,

GREENOCK.
