

"Wendell Dale" ex Ophelia

L1

Mr Turnbull during telephone conversation with ^{VI}
Mr. Borchard of Fairplay & Co. stated that so far as
could be ascertained from the information on record here
& obtained by telephonic communication from the surveyor Mr.
MacIntyre ~~there appeared to be no difficulty in getting~~ everything
was in order, except in regard to the Main Engine Condensate
pump, for submitting the ship for classification as soon as the
Surveyor's reports are received. The pump or at least the body
of the pump is to be replaced by new ^{pump or body} within a period of
two months. The body is slightly porous.
