

COPY.

ROTTERDAM.

2. 21st September, 1926.

I have to request that in future cases you will be good enough to identify boilers examined by you by their position in the vessel, and not by numbers, as this latter course is confusing when surveys are completed at other ports.

"MARIA ELIZABETH" Ams. 10338. (1) } Certificates are enclosed
"PRINSES JULIANA" Ams. 10333. (2) } herewith for transmission
to the Society's Surveyors at Amsterdam, after signature.

15562 "WESTLAND". I have to point out that the NHP as per Rule in this case should be 304, and not 253 as given on your report, and in the circumstances I have to request you will be good enough to render an account for the difference between the fees already charged, and those which are chargeable for a NHP of 304.
