Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

2nd June, 1939.

Dear Sir,

E. I duly received your letter of the 22nd ultimo relating to the Motor Tanker "ZWEENA", and confirm that the Nominal Horse Power of the ^{new} main propelling machinery for this vessel is 162 and that the fees chargeable for the survey during construction and installation of this machinery should be calculated at 5/- per Nominal Horse Power, which makes the fee £40.10.0. Any expenses which may have been incurred should also be charged.

In reply to the enquiry in the last paragraph of your communication, I have to say that no First Entry Fee should be charged in this case.

I am, Dear Sir,

Yours faithfully,

M. Adam, Esq.,
DUNKIRK.

Secretary.
