LONDON

7, Rue Van Stabel,

Dunkerque, 8th April, 1939.

Dear Sir,

Motor Tanker "ZWEENA"
Modifications to the Electrical Installations.

I am in receipt of your letter "E" of the 6th Instant and under separate cover the plans are also to hand.

With regard to the last paragraph of your letter, it is to be considered that the previous installation of the 2 dynamos was not modified with regard to the main switchgear which is fitted with fuses, ammeter, voltmeter and earth lamps as required by Section 3 of the Rules.

The new switchboard is only an additional switchboard which bus bars are directly connected to the omnibus bars of the previous main switchboard.

The additional switchboard is fitted with breakers & fuses as indicated on the new approved plan for running of the apparatus connected to same.

I remain, Dear Sir,

Yours faithfully,

The Secretary.,
