

The class is subject to indented shell plate in

25th May, 1951.

THORSHAVN

97 "SKALABERG" Assigned a docking date of 3.51 as recommended, but approval of the proposed postponement of the Special Survey until the end of September next has been deferred pending the receipt of a statement or report from you that the machinery has been examined under working conditions and is considered in efficient condition for this postponement (please see my letter of the 30th ultimo).

The contents of your memorandum of the 26th ultimo have been duly noted.
