—Montrose, Nov. 11. —
Montrose lifeboat launched to search for survivors of steamer Warren Grove.

—Jarrow, Nov. 11. —
Three survivors from the steamer Warren Grove reached the Tyne to-day in the tank steamer El Ciervo; so far they are the only survivors of a crew of 10 of the vessel which sank in a gale in the Firth of Forth on Tuesday night (Nov. 9-10). It is stated that the vessel encountered heavy weather off Montrose, developed a list to starboard and cargo shifted. The crew took to the lifeboats, but the starboard lifeboat was flooded immediately and the list prevented the port lifeboat being launched. A working boat was then put off, but some of the men returned to the vessel and the three survivors were among the crew who returned to the ship, but were flung off when the vessel sank; they managed, however, to get on one of the boats. They were picked up at 11 a.m. on Wednesday by the El Ciervo.
