Dear Sirs,

Ruston & Hornsby Ltd. Order No. 13/450053.
8VGBXM Engine No. 24110 for Cochrane & Sons
Ltd. Yard No. 1319.

I duly received your letter of the 6th instant with accompanying print No. RD-10190 - Amplitude/RPM Curve.

This print, giving the results of torsionograph tests on the engine, has been examined and is considered satisfactory for an engine speed of 400 R.P.M.

Accordingly, the notice with limiting speed range of 10 R.P.M. in way of the 8th order 3 node critical speed will not now be required.

It would be appreciated if you could arrange to forward a copy of the torsionograph records to this Office for record purposes.

Yours faithfully,

Copy to Hull

Secretary.

The Surveyors,
NOTTINGHAM.
