E.

Enclosures.

Dear Sir,

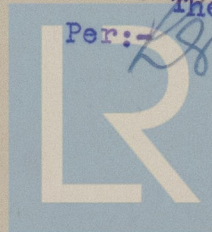

We beg to advise you that Messrs. Cochrane & Sons, Ltd., Selby state that the Owners have asked them to fit a power suction from the ballast tank at the end of the cruiser stern of their Yard No. 1319.

In the circumstances, a plan, in triplicate, of pumping arrangements showing what the Builders propose, is submitted for consideration, and the Builders have ringed in pencil on the plan the alterations due to the fitting of this suction.

We are, Dear Sir,
Yours faithfully,
The Surveyors.
