Dear Sirs,

ANSD.....

Electric Trawl Winch. Cook,
Welton & Gemmell's Ship 766
and Cochrane's Ship 1319.

We are in receipt of your letter of 15th May, and thank you for pointing out that there is no auxiliary switch-board.

For some Trawl Winch equipments the exciter is used not only for supplying current to the field circuits it is also taken to an Auxiliary Switchboard for supplying the current for other purposes.

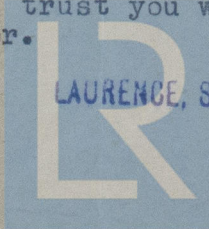

We accordingly enclose three copies for each ship of prints Nos. 6588A & 9A/46 on which we have put a note covering the omission of the Auxiliary Switchboard if not used.

We trust you will now find these in order.

Yours faithfully,
LAURENCE, SCOTT & ELECTROMOTORS LTD
