pro

"PORT LAURIE". Reclassed 100A1 with notations of Lloyd's A & CP and GLMC.3,21. The remarks in your letter of the 20th instant are noted and I have to call your attention to the necessity of making such arrangements as will ensure that there is no delay in forwarding your First Entry reports, which is absolutely essential in order to avoid complaints from the Owners of the non-delivery of certificates, as in this instance.

It is concluded that the numbers of hatch webs and fore and afters are as approved, but you should state if this is so.
