The Secretary, ^{ANSO}

London.

Dear Sir,

I beg to enclose herewith for the consideration of the Committee, a letter now received from Messrs Harland & Wolff Ltd., regarding the Twin Screw Steamer "GRAPHIC", which they are repairing.

The vessel is being reconstructed to burn oil fuel although the new boilers (and their safety valves) plans of which were forwarded for approval on the 2nd instant, were originally designed for coal burning.

With this case in mind I would like to take this opportunity to ask if the Cockburn-MacNicol High Lift Safety valve has been approved by the Committee, as was stated on page 66 of "Engineering" dated July 13/23.

I am, Dear Sir,

Yours faithfully,

H. P. Southwell.
