Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

Encls.

9th August, 1923.

Dear Sirs,

E.

With reference to your letter of the 2nd instant enclosing one from Messrs. Harland & Wolff Ltd. forwarding for consideration plans of one double-ended and two single-ended boilers proposed for the S.S. "GRAPHIC", I have to inform you that these boilers will be accepted and a working pressure of 215 lb. per square inch assigned, provided the boilers already made be examined throughout and the workmanship be found satisfactory; the scantlings of all boilers be in accordance with the plans, and the construction of the remaining single-ended boiler be completed under the usual conditions of survey and testing.

It is concluded that in the double-ended boiler the through longitudinal stays are supported at or near the middle of their length.

The plans forwarded are returned herewith.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,
BELFAST.
