LLOYD'S REGISTER OF SHIPPING

LONDON

28th September, 1948.

Reference H & F

COPY.

Dear Sir,

M.S. "RIVER SWIFT"

I have to acquaint you that in June last the Owners of this vessel were advised that the Committee had agreed the completion of the Special Survey being postponed till her return to this country within about three months, subject to a satisfactory report being received on her condition when the requisite survey for extension of the Load Line Certificate, which expired on the 31st July last, took place. It was understood the inspection in question would be held at Buenos Aires in July.

It is noted from your Return of Vessels under Survey dated the 30th July last that the vessel came under your inspection for damage, and I shall accordingly be glad if you will advise me of the present circumstances of this case.

You will note that the Donkey Boiler Survey became due at the end of July last.

Yours faithfully,
 The other items mentioned to you were examined only as far as General Examination at Liverpool, but not as far as Special Survey. Accordingly these parts will require to be examined on the completion of the Special Survey. Clerk to the Classification Committee.

Yours faithfully,

Caldwell, Esq.,
 Lloyd's Register of Shipping,
 10 DE JANEIRO.

Clerk to the
 Classification Committee
