

Glasgow

17th November 1914

J. Ritchie

Mr. Lindsay Burnett Esq., Glasgow
 attend at these works for the
 purpose of surveying & testing two
 cylindrical steel air reservoirs intended
 for the Highland & Lochee No 466 vessel.

The material has been tested in accord-
 ance with the Rules, the results are in
 accordance with the approved plans &
 the workmanship is good.

The reservoirs were tested in air pressure
 on the 1st November 1914 by water pressure to
 588 lb per square inch & were found
 tight and sound in every respect at
 that pressure.

Working pressure not to exceed two
 hundred and ninety four pounds per square inch.

With an allowance

J. Ritchie
