TELEGR. WEBERS

L.276/52

HELSINGFORS, 1st of April 1952.

Dear Mr. Sladden,

Your favour of 28.3.52, regarding s/s "EDNA", thank-  
fully received.

It was indeed a sad accident, the foundering of said  
steamer.

The only inspections carried out on the vessel during  
my surveyorship were the Boiler Surveys at Pargas (Åbo)  
7.10.50, and at Fredrikshamn 29.11.51, and then finally the  
blowing of the safety valves at Kotka, 19.12.51. It is im-  
possible for me to give any clue to the cause of the acci-  
dent.

According the Finnish Board of Navigation, there will  
be an inquiry held at Mariehamn the 7th inst.

If something will be found at this inquiry, I will  
inform you thereof.

Returning your kind regards, I remain,

Dear Mr. Sladden,

Yours sincerely,

Åke Weber. 5.41 C
