

40.

Additional

Twin Screw S.S. "NAIRANA" (Tonnage not stated)

Reg. Dimensions:- 326.5 x 45.6 x 16.1 to Upper deck.  
----- 23.6 " Shelter "

This vessel was built by Messrs W.Denny & Bros, Dumbarton for Messrs Huddart, Parker Limited, of London & Melbourne, and has now been requisitioned by the Admiralty.

The vessel was launched on the 21st June, 1915, and completed on the 7th of September 1917.

In accordance with the requirements of the rules, the date of build should be recorded as December 1915.

The Surveyors state the completion of the vessel has been delayed owing to conditions arising out of the war, and the Builders desire the Date of Build to be recorded as September 1917.

The vessel was examined in dry dock in August last, and the Surveyors recommend the Builders application for the approval of the Committee.

The case received the consideration of the Glasgow Committee on the 19th inst, when it was decided to recommend the proposal for the approval of the General Committee.

The case is therefore submitted for the consideration of the Committee.
