RECE 28 MAY 1907

ANS 48

Sir

With reference to your wire of even date  
respecting Vauxhall Co's Steam Drifters.

I beg to state that two of these the "City of  
London," & City of Edinburgh, left here on  
Saturday for Peterhead, without having the  
easing gear fitted to safety valves, this  
one of the Owners stated would be done 5.04  
at Peterhead.

The Aberdeen Surveyors here  
were advised on Saturday, and again  
tonight as per copies of letters attached.

The machinery reports will be  
forwarded to London tomorrow

I am, Sir

Your obedient Servant  
James Barclay

The Secretary  
London E.
