

EXTRACT FROM THE BUREAU VERITAS RULES (1921) REGARDING
DATE OF BUILD

The date of build of a vessel is to be reckoned from the delivery of the original classification certificate , provided it be issued within six months after launching; but in case it should be issued later than that, the date of build is to be reckoned at six months after the date of launching.

EXTRACT FROM THE NORSKE VERITAS RULES (1924) REGARDING
DATE OF BUILD

In all cases of vessels built under special survey, the date of completion of such survey will be taken as the date of build of the vessel, provided the survey be completed within six months of the date of launching. When, however, the special survey is not completed within this period, the date of build will be taken as six months after the date of launching.
