

"KINUGASA MARU"

Classed +100A1

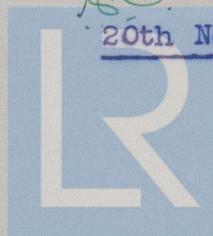

Built 1924-11 by Ropner Shipbuilding and
Repairing Company

It is submitted the Kobe Surveyors be informed that it has been noted from a report in Lloyd's List dated 20th November 1951, that the above vessel carrying a cargo of iron ore, sank 1200 miles east of Yokohama and that the vessel reported a leak on November 9th.

It will be appreciated if the Surveyors can report to this office any information regarding the above casualty.
