P.  
Dear Sir,

"JANKO"

I have to acknowledge receipt of your letter of the 5th March enclosing your report on the above ship, together with sketches, photographs etc., the contents of which are noted with interest.

Full particulars of loading have now been received in this Office. The after part of the ship was dry docked in Falmouth on the 14th March and recommendations made for repairs in the event of a new fore end being built. Samples of the material have also been obtained for examination.

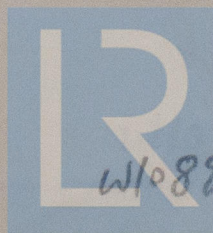

I have to thank you for the attention which you have devoted to this matter.

Yours faithfully,

P.E.C.

Secretary.
