

S.S. "HARPORT".

It is submitted Messrs. Smith's Dock Co., Ltd.,
be informed by wire as requested that if the
wells be filled in in accordance with the approved sketches
and a tonnage opening be fitted at each end of the vessel
as proposed, a Summer freeboard of 3'-7½" from statutory
deck line 3" above steel deck at side, Winter 5½" more,
could be assigned, subject to the openings in the bulkheads
at the ends of the tonnage openings being closed as
required by the Regulations and to efficient temporary
covers being fitted over the tonnage openings in accordance
with the Rules for shelter deck steamers.

C.F.

AC

22.6.12.

The sketches of deck plans and quarter
pillars are being examined, and will be
returned as soon as possible.

The approved plans of the alterations
should be returned for reference.

Let Mr. Bliss 22/6/12
