Enclosure.

29th December, 1950.

Ref: Eng.

Dear Sirs,

Scheepswerf Worst & Dutmer, Meppel
Yard No. 101 Messrs. Klockner Humboldt-
Deutz Engine - Order No. 2082. 7003.

I am in receipt of your letter of the 27th instant in reference to the plans of shafting and the torsional vibration calculations forwarded with your letters of the 9th and 12th October last in the case of the above vessel.

A reply to your two communications was addressed to you on the 12th instant, a further copy of which is enclosed herewith. You will observe that two copies of the plan of shafting and two sets of the torsional vibration calculations were returned with my letter and in the event of your not being able to trace these as having been received by you, doubtless you will advise me.

Yours faithfully,

pro Secretary.
